

# IT'S BATH TIME!

There was a time I found myself with a dozen, smelly dogs that all wanted to live in the house with me. Bath day was a huge production and took on the unpleasant atmosphere of an automated carwash. All the dog shampoos I tried, felt more like harsh, household detergents that left my hands red and irritated. No wonder our dogs have skin problems.

After three years of testing on dogs and people, we came up with Bo Derek Pet Care shampoos and conditioners containing exotic botanicals that are quick and easy to use and make the coat so soft you can't keep your hands off your dog, which when you think about it, is a win-win for both of you.

- **CRUELTY FREE - OF COURSE!**
- **OUR PATENTED\* SIGNATURE FRAGRANCE** is specially formulated to neutralize canine malodors, not simply mask. It imparts a clean, healthy fragrance to the hair shaft that resonates weeks after use. Its brilliant!
- **ALL OUR PRODUCTS** are manufactured in California in a solar-powered, clean-water facility. Each product is loaded with **ECO-FRIENDLY INGREDIENTS** like Meadowfoam Seed Oil which is derived from a cover crop that enriches top soil and is a botanical alternative to sperm whale oil. It's good for the planet and gives incredible shine and health to your dog's coat.
- We donate a portion of the profits to organizations dedicated to serving retired **MILITARY WORKING DOGS**

Our SHAMPOO is Anionic! Anionic? It's a negatively charged ion. This electrostatic Anionic charge enhances the shampoo's ability to cleanse and release surface debris. Perfectly PH Balanced and contains exotic botanicals and amino acids to nourish, soothe and protect the coat, giving it a show-quality sheen.

And our CONDITIONER is the bomb! After years of grooming my Andalusian horses with their abundant manes and tails I've become quite expert at detangling. Our rich conditioning treatment is designed to be Cationic, Cationic? This means that the formulation is a positively charged ion. The natural conditioners and botanical enhancers are chemically attracted and adhere to the hair shaft which gives you maximum sheen and softness.

Our TEARLESS FACE WASH is a must-have. Most shampoos say to wipe the dogs's face with a sponge dampened with clear water. Seriously? Not good enough for my pack. With this Face Wash you can scrub away tear stains, slobber and dog food (not to mention whatever she might have rolled in) without the worry of hurting her eyes. This is also great for puppies!
